Dear Parents and Students

Welcome back to school to all our Grade 11 students. You have been away too long, and we have missed you. Best wishes as you begin your AS Level curriculum.

The results will be out on the 12th of August. These can be collected from Mrs Dodge's office at 9:00.

Have a super week and please stay safe.
Regards,
C.A. Dodge

AURICULAR HEALING

NADA CERTIFIED PRACTITIONER

Acudetox and EarSeeds Therapy

Acupuncture and accupressure are steeped in Traditional Chinese Medicine.
Your ears are the gateway to achieving holistic health physically and mentally.

Acudetox Benefits include:
Lowering of anxiety,agitation and stress.
ADHD support
Especially beneficial to teenagers during exam season.
Increase calmness and concentration.
Allows a calmer grieving process
Improve sleep patterns.
Reduction of cravings, incl food and substances.
Minimizes withdrawal symptoms.
Treatment of chronic pain incl migraines, back pain and allergies etc.

Ear Seeds are tiny magnets that are placed on the ear after treatment. These are placed on accupressure points. They stay in place for 3-5 days. These are also beneficial for specific localized pain management.

BABYGYM® TRAINING FOR:

Teachers and Classroom Assistants working with babies aged 0 - 14 months

WHY IS DEVELOPMENT IMPORTANT?

Research has indicated that there is a link between the variety of movements a baby makes during the first few months of life and their ability to adapt and learn later on in life.

The purpose of baby's first year is to DEVELOP - to become alert, strong, independent and clever - and BabyGym helps to make this happen!

FOR WHOM?

- Teachers and classroom assistants
- ECD Practitioners
- Nannies, au pairs and child minders

CURRICULUM

R1045

1. Discover the sense of touch (baby massage).
2. Discover the sense of movement and balance.
3. Discover the senses of smell and taste.
4. Discover the senses of hearing and sight.
5. Explore the importance of an aware body and strong muscles.

AT BABYGYM WE:

- Offer massage to help baby de-stress and relax
- Facilitate bonding between baby and caregiver
- Stimulate the sucking reflex to aid quality feeding
- Teach how to aid good metabolism and digestion
- Wake up each of the senses slowly and gently (sensory awareness)
- Use fun and structured activities to develop the pathways between the senses, brain and muscles (sensory integration)
- Master tummy time
- Develop skilled hands
- Develop body awareness, muscle tone, posture and spatial orientation
- Reach milestones with quality movement
- Move with confidence and coordination
- Move with control and know how to STOP
- Graduate from infancy to toddlerhood.

During training the caregivers are able to work without distraction by simulating the BabyGym exercises on a doll. Once they have mastered the massage and exercises, they are ready to implement BabyGym at home or at school.

It is important to note that the Friends of BabyGym training programme does not qualify an individual to present BabyGym to anyone OR to receive any form of monetary payment for services offered. Instead, Friends of BabyGym training enables the teacher or classroom assistant to take care of baby in a development enhancing manner.
